DOWNTOWN VENTURA MINI GOLF CHALLENGE

BENEFITTING TEDDY BEAR CANCER FOUNDATION

BUILD, DESIGN, OR HOST A MINI GOLF HOLE

Hole Hosts are businesses located on (or just off) Main Street. Each Hole Host will be paired with a builder, contractor, or architect partner and together they'll create a mini golf hole to be displayed in front of the host business.

Each hole becomes a unique attraction and provides excellent visibility throughout the day. The Main Street business and the partners share the cost of the project, which is limited to 18 total businesses.

Benefits

- Prominent sign with host's and partner's logo displayed at the hole
- If your business is located on or near Main Street, the hole may be named after your business (e.g., The Paradise Pantry Hole)
- Business name listed on the participant t-shirt
- Complimentary single player registration

Mini Hole Design Guidelines

- Par 4 max
- Each mini golf hole must fit within the footprint of its host business's frontage and may not extend in front of neighboring businesses.
- Each hole should be easily and quickly assembled and disassembled.
- Hole Hosts and their partner will be responsible for assembling, disassembling, and positioning their mini hole on the course. Holes must be removed from Main Street by noon the following day. TBCF is not responsible for holes left overnight.
    - If requested in advance, TBCF may be able to provide volunteer assistance for disassembly.

We encourage hosts to keep their materials and reimagine a new design each year!
